***Examiner's Statement of Reasons for Allowance***

1. Claims 2-13 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 10, and 13:

The present invention is directed to an antenna coupling module.

The following is an examiner's statement of reasons for allowance:

The prior art does not anticipate nor does it suggest the combination of elements as now claimed and as argued by the applicant on pages 8-9 of their remarks. Specifically, the applicant argues that the claims are directed to an antenna system "constituted by a sterically effective arrangement" (page 8). While these exact words may not be stated in the claims, it is clear based on the claimed structure, the disclosed structure, as well as what the applicant argues that this is the type of structure that the claims are directed towards. The examiner is therefore reading the claims in the manner as disclosed and argued by the applicant.

Claims 2-9, 11-12 are allowed for depending on claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
